

Effortless Facts: December 2016 Edition

From Financial Compliance for Research!

SPAR Subset Relationship "Triangle" is comprised of: (1) Grantor, (2) Awardee, (3) Shared Employee. Retention of access forms/ termination of relationship when the business purpose ends lies with Grantor. FCR will audit SPAR access forms in December, deleting unnecessary subsets in January. Subset triangles identified below will be terminated:

- One or more of the parties has terminated*
- Shared Employee has transferred*

*As a best practice, when an **employee transfers** from your department, contact the new department for the new account distribution. Make the SPAR mod before the SPAR access is transferred to ensure that charges to your department end timely.*

Spring Workshop Dates have been added to the FCR website and registration is now open at <https://www.cfo.pitt.edu/fcr/workshops/register.php>

Happy Holidays from the FCR Staff!
