

Franklin Interiors
Furnishing Workplace Results

ARCHIVED

For years, Franklin Interiors has helped the University of Pittsburgh's faculty, staff and students create great workplace solutions. We are proud of our decades long relationship with the University. Whether it's furnishing the Petersen Events Center, fixing your desk chair or handling everything in between, we are your complete office furniture solutions provider.

From simple seating and storage needs to offices, lounges, classrooms, work areas and "in between" spaces, Franklin Interiors provides furniture, movable walls, raised floors, marker boards, multimedia whiteboards and communication tools to support your diverse teaching, learning and working styles. With our new partnership with the University in place, we are more affordable than ever!

In addition to great products, Franklin Interiors offers a full range of services from office space planning to installation, refurbishment and repair.

Coming soon, we will launch an on-line catalog of our products and services to make your purchasing even easier. In the meantime to learn more about how Franklin Interiors can help you, please call or email Todd Irwin, Vice President of Sales, at 412-255-4050, tirwin@franklininteriors.com; Kevin Lucca, Account Manager, at 412-255-4052, klucca@franklininteriors.com; or Bonnie Bihary, Customer Support Representative, at 412-255-3080, bbihary@franklininteriors.com.

Steelcase and our family of companies are proud to serve the University of Pittsburgh. We, through our partner dealer Franklin Interiors, can supply nearly all the products and services the University needs to create work and learning environments that energize and inspire the people who work in them.

User-Centered Design

We are students of the workplace. We study how people work using techniques like video ethnography and anthropological studies. We also have alliances with leaders in other industries; we partner with companies like Lucent, IBM, DuPont, and Johnson Controls. Since 1996, we've had an equity position in the most recognized industrial design firm in the world - IDEO in Palo Alto, California.
