

Install Java Plug-In for PRISM

You will need administrator rights to your computer to install Java.

Please contact your technical support group for assistance.

1. Go to the following web site to download the Java plug-in. PRISM currently supports Version 8. Any update in the Version 8 series will be supported. When a new Version number is released, please check with the PRISM Help

By downloading Java you acknowledge that you have read and accepted the terms of the [end user license agreement](#)

Windows

Which should I choose?

 Windows Online filesize: 721.06 KB	Instructions	After installing Java, you may need to restart your browser in order to enable Java in your browser.
 Windows Offline filesize: 54.57 MB	Instructions	
 Windows Offline (64-bit) filesize: 62.34 MB	Instructions	

If you use 32-bit and 64-bit browsers interchangeably, you will need to install both 32-bit and 64-bit Java in order to have the Java plug-in for both browsers. » [FAQ about 64-bit Java for Windows](#)

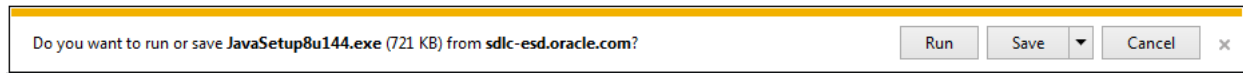

Mac OS X

Mac FAQ

 Mac OS X (10.7.3 version and above) filesize: 63.94 MB	Instructions	After installing Java, you may need to restart your browser in order to enable Java in your browser.
---	------------------------------	--

* Oracle Java (Version 7 and later versions) requires an Intel-based Mac running Mac OS X 10.7.3 (Lion) or later and administrator privileges for installation. » [More information](#)

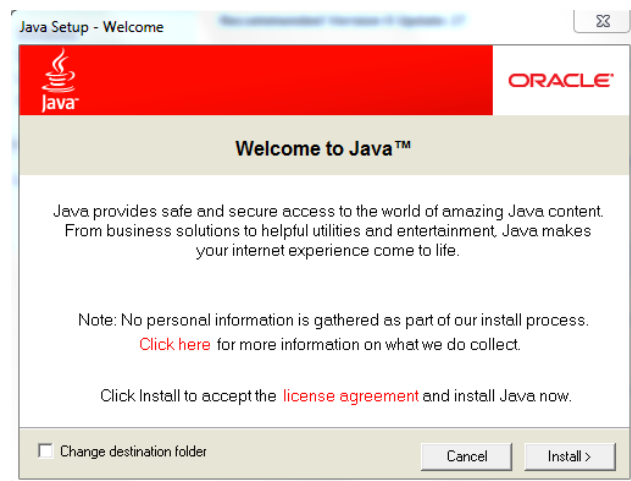

2. Click the link for your workstation operating system. The File Download dialog box will appear (different operating systems may have different dialog boxes).

3. Click the Save button.

Note: If you have previously downloaded this version of Java, you may be prompted: File already exists. Do you want to replace it? Click Yes to replace.

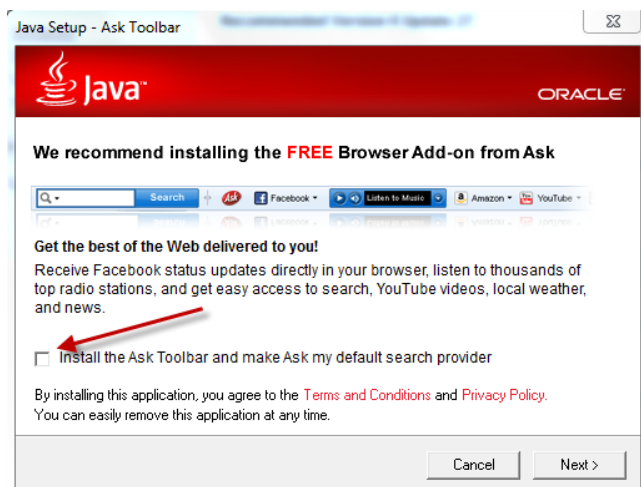

4. Click on the Run button to start the installation process.

5. Click Install.

- The installer unpacks the files needed for the installation, which takes less than a minute.

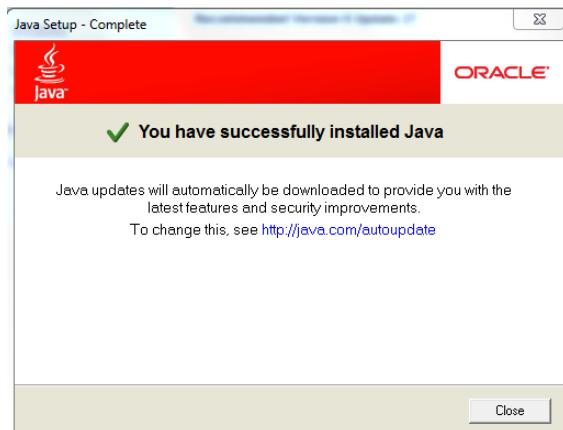

6. The installer may present you with an option to install a Browser Add-on when the Java is installed. Uncheck the Install the Ask Toolbar option. Click Next to continue the installation.

7. The Progress window tracks the installation process.

8. The following message should then appear with the confirmation of a successful installation. Click the Close button.

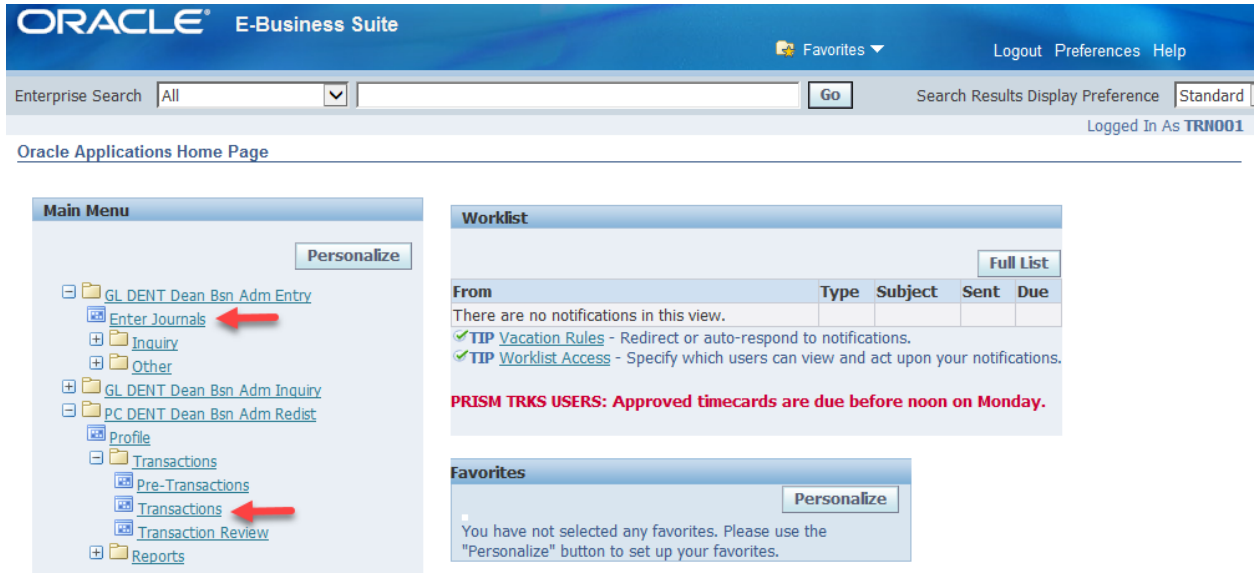

Verify Installation

1. Close all open browser sessions
2. Open new browser session
3. Login to the University Portal.

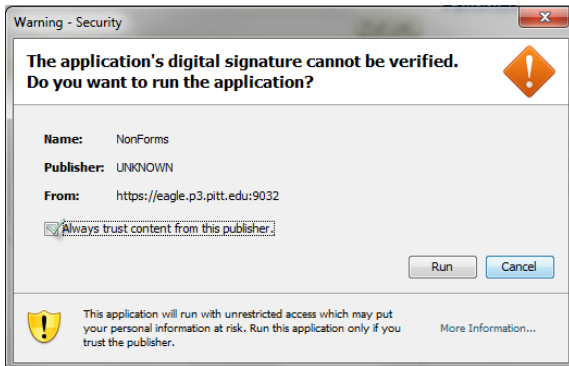

<https://my.pitt.edu/> (My Pitt)

4. Select the PRISM Login link.

5. Select a non self-service Responsibility and then select a Function as shown in the example below.

6. The following Security Warning will appear. Select *Always trust content from this publisher* and click Run.

7. Verify the PRISM application opens.
